

Parabolt introduced Global Trade Platform:

An online platform for digitization of commodity trading and financing

Global Trade Platform allows you to trade, execute and finance international trade transactions

Miami, January 14, 2020 – Parabolt, a company that transforms innovative ideas into disruptive digital products, expanded its Digital Ventures portfolio with the development of **Global Trade Platform**. The solution was presented together with Octagon Asset Management.

This platform is an industry game changer as it digitizes the entire commodity trading and financing process, creating a one-stop shop for all parties involved. Global Trade Platform includes an open market for disclosing and contracting the associated services, integrated end-to-end financing and for each stage of the process, and portfolio management tools that include investment, alerts and risk management.

"The launch of Global Trade Platform is just one more example of our commitment to transforming innovative ideas into disruptive digital products. We are very happy to be able to present it alongside our business partner Octagon Asset Management," said Martin Wagmaister, Co-Founder and CEO of Parabolt. "Starting 2020 with the introduction of this platform from our Digital Ventures portfolio represents an excellent kick-off," he added.

Global Trade Platform consists of two components or marketplaces: Global Trade Exchange (GTE) and CommodityFinance.com. The latter is a state-of-the-art technology solution for digitizing the financing of international commodity transactions that allows placement agents and traders to manage the entire process online, from request to closure, using a secure platform that employs Blockchain technology.

Global Trade Platform joins Parabolt's Digital Ventures service offering in conjunction with [Navigate](#), a platform that streamlines business decision-making based on real-time data analysis, and *Omnichannel Customer Platform* (OCP), which is suited to provide better customer experiences that increase sales and strengthen loyalty through a cloud technology platform.

About Parabolt

We are a company that transforms innovative ideas into disruptive and scalable businesses. From three camps or business portfolios, we incubate our own concepts and others from leading Latin American entrepreneurs and large corporations to transform them into digital products and collaborative platforms.
